FTN Services | Your Conference in Sound and Vision

Our Services

- Videos of all lectures on all stages
- Multiple camera perspectives
- Professional cut
- High quality sound
- Mood video including music
- Participants' comments
- Photo material of the conference

Your Advantage

We produce high-quality video material from your events for you which you can use for purposes of marketing and advertising. We collaborate with an experienced and professional team with whom we have already accompanied a multitude of events on three different continents, with a focus on the locations of Berlin, Brussels, and Washington. Upon request, we will also help you to distribute the material to your target audience as effectively as possible after the conference, thus reaching a wide circle of people.

Some sample videos can be found here: www.services.ftn.media/examples
